The Flood Control District invites residents and property owners to attend an open house on the Wittmann Area Drainage Master Study (ADMS). The open house format means that you may stop in anytime from 6:00 pm to 8:00 pm to get information on your property and the study. To explain the delineation results, representatives from the District and the consultant team will be available to answer any questions. You may visit our Web site to read about the project and view a map of the study area. Come learn more about this study and how it might affect you.

A sign language interpreter will be made available upon request with 72 hours notice. Alternative format materials or FM or Infra-Red Listening Devices are also available upon request with 72 hours notice. Additional reasonable accommodations will be made available to the extent possible within the timeframe.
